

# SUPPLEMENTAL INSTRUCTION

**HSMM, Inc.**

P. O. Box 13446

Roanoke, Virginia 24034

TO: Skanska USA Building Inc.  
Attention: Mr. Scott Rivenbark

SI NO.: 230  
DATE: 30 March 2007

OWNER'S CONTRACT NO.:

HSMM COMMISSION NO.: 40044A

PROJECT NAME: CARILION MEDICAL CENTER CONSOLIDATION/ SITE WORK

PROJECT LOCATION: Carilion Roanoke Memorial Hospital, Roanoke, VA

SUBJECT: Add Fire Service Valve Vault at North Parking Area

SPEC. SECTION: \_\_\_\_\_ DRAWING NO. \_\_\_\_\_

---

## INSTRUCTION:

This new water line was installed near the intersection of the north access road and Belleview Ave. to provide fire service to the nursing school. The water authority requires a fire service vault at all fire service connections to their system in accordance with Sketch SK-409, dated 30 March 2007. The vault serves three purposes: 1. serves as clear demarcation of ownership of the two systems; 2. prevents backflow into the authorities system; 3. detects any water use through that connection that may be from something other than fire flow.

A fire service vault needs to be installed at the connection point to the authorities system. The post indicator valve will be relocated downstream of the vault. An easement will be required here to include the vault and the fire hydrant also located there that is outside of the Belleview right of way

ISSUED BY HSMM: Harry Stockton DATE: 30 March 2007
