ATTN: Mr. Ronald L. Willard, President

RE: Ground Potable Water Tank  
Smith Mountain Lake, VA

Dear Mr. Willard:

We are enclosing 6 sets of prints of revised shop drawings 1, 3, 4, 5, 6, 7, 8, and 9 for approval.

We have revised the roof to a self supporting lap dome in lieu of the column supported roof which was previously submitted. This is a preferable design since it has much better maintenance characteristics. There are no rafters or columns to paint and maintain and is in my opinion a more aesthetically pleasing roof. We have made this change to make the job more easily erected at no additional charge. If you have any questions, please call.

Sincerely,

SERVICE ENTERPRISE CORP.

  
Michael T. Nugent, P.E. <sup>rc</sup>
