SURVEY NOTES:

- 1.) Source of Meridian: Virginia State Plane, South Zone, (NAD 83) based upon static GPS sessions performed by Draper Aden Associates personnel.
- 2.) Vertical datum: NAVD 88 based upon static GPS sessions performed by Draper Aden Associates personnel.
- 3.) This survey was prepared without the benefit of a title commitment or title report and all easements and encumbrances that might be disclosed in a title search may not be shown.
- 4.) Utilities shown are based upon:
SUE Quality Level D, ASCE 38-02 - compiled records only
SUE Quality Level C, ASCE 38-02 - visible evidence in conjunction with compiled records.
X SUE Quality Level B, ASCE 38-02 - field designation of underground utilities performed by (Miss Utility, Ticket # A706801518) and visible evidence in conjunction with compiled records.
SUE Quality Level A, ASCE 38-02 - test pits at locations shown hereon performed by (DAA; Other) in conjunction with field designation of underground utilities performed by (DAA; Miss Utility, Ticket # _____; Other), visible evidence and compiled records.
No SUE was performed or requested for this survey. Utilities shown hereon are based on field observation only.
- 5.) This topographic survey for waterline replacement along Westside Boulevard was completed under the direct and responsible charge of Loren W. Knighting from an actual Ground survey made under my supervision; that the imagery and/or original data was obtained on the weeks of March 6, thru April 3, 2017; and that this plat and/or map meets minimum accuracy standards unless otherwise noted.
- 6.) Contour interval: 1'.
- 7.) This survey was prepared for Western Virginia Water Authority. Draper Aden Associates assumes no liability for reuse or modification of this document.
- 8.) Property lines shown hereon are compiled from record information.
- 9.) Draper Aden Associates provides benchmarks for the construction of the improvements shown on these plans. All other existing elevations are for reference to existing conditions only. Do not use spot elevations, finish floor elevations, elevations on manholes, elevations on survey nails, survey hubs, control points (horizontal points provided) or any other points for construction other than the provided benchmarks. Failure to utilize and verify the provided benchmarks could result in damages and additional cost that are the contractor's responsibility.

HYDRANT COVERAGE:
500 FT. - RESIDENTIAL
250 FT. - APARTMENTS
