

- GENERAL NOTES:**
- All water line construction shall conform to Roanoke County water & sewer regulations.
  - The contractor will be responsible for all testing and chlorination.
  - All taps to the existing water line will be performed by the Utility Department.
  - Roanoke County personnel will connect the new service to the existing service.
  - The existing water services must be maintained.
  - Prior to any digging, all existing underground utilities are to be marked.
  - All existing utilities shown are from records and are shown for information only. A field survey was not conducted.
  - All service connections will require an individual PRV, County side.

BWL - Begin Water Line  
 EWL - End Water Line
