

be delayed by this repair work, notified H & S Construction on January 15, 1986, that their bid for the repair work was accepted and they were to begin work as soon as possible due to emergency conditions.

II. Current Situation:

- A. Work began on January 21, 1986 and will continue as weather permits to restore all damaged facilities.
- B. Authorization and funding are as authorized by the Council Report presented to Council on December 16, 1985 titled Notification of and Financing Needed for Emergency Work Initiated Regarding the City's Public Utilities Systems, and the subsequent ordinances.

Respectfully submitted,

  
W. Robert Herbert  
City Manager
