Re: Crystal Spring Pumping Station

Dear Sir:

We submit a price of \$77.00 for extending the meter pit two feet deeper and filling the bottom two feet with 2" stone.

We are enclosing two prints of our detail showing the change in roof construction and wall construction as outlined in our letter to you of September 12, 1951. We are also sending two prints to Alvord, Burdick & Howson along with shop drawings of the bar joists.

Yours truly,

J. M. TURNER AND COMPANY, INC.
