

- ## LIST OF DRAWINGS

Site plan of the Roanoke River Water Pollution Control Plant. The plan shows various treatment stages including primary settling basins, clarifiers, thickeners, digesters, and sludge beds. It also features a sludge disposal area, four lagoons, and a borrow area. Infrastructure like roads (Taylor Ave, Brownlee Ave, Underhill Ave, Seaboard Ave, Caroline Ave, Benjamin Ave), a railroad (N.W. R.R.), and a 48-inch concrete pipe are indicated. A north arrow is in the bottom right corner.
